

MAURICE DUIJS — CV

Date of Birth: December 24, 1980

Nationality: Dutch & Swedish

Languages: Dutch, English and Swedish

Email: duits@kth.se

Homepage: www.math.kth.se/~duits

Google Scholar: <https://scholar.google.com/citations?user=JAVWIF4AAAAJ&hl=en>

POSITIONS

Chaire d'Excellence 2025 — Fondation Sciences Mathématique de Paris

Sorbonne University, LSPM, September 2025 – August 2026

Full Professor

Royal Institute of Technology (KTH), 2021 — current

Associate Professor

Royal Institute of Technology (KTH), 2015 — 2021

Associate Professor

Stockholm University, 2014 — 2015

Postdoctoral Researcher

Royal Institute of Technology (KTH), 2011 — 2013

Olga Taussky — John Todd Instructor

Caltech, 2008 — 2011

DEGREES

Docent in Mathematics, Royal Institute of Technology (KTH), 2013

Docent in Sweden is an academic qualification closely related to habilitation in other European countries and required to act as main supervisor for a PhD student.

Doctor in Science, Mathematics, KULeuven, 2008

Advisor: Professor Arno Kuijlaars

Master of Science, Applied Mathematics, TU/Eindhoven, 2004

AWARDS

2025 Chaire d'Excellence — Fondation Sciences Mathématique de Paris

2017 Wallenbergprize of the Swedish Mathematical Society

2016 Gustafssonprize (KTH/UU) for young researchers

GRANTS

ERC Consolidator Grant

Project: "Patterns in Random Tilings" (PiRaT)

Amount: 2mEUR, Duration: 5 years, started March 2022.

Project Grant from the Swedish Research Council

Project 2016-05450

Amount 2.8mSEK, Duration: for 4 years

Wallenberg Postdoctoral Scholarship Program for the recruitment of researchers from outside Sweden

Amount: 1.7mSEK

Research grant with Gustafssonprize (KTH/UU) for young researchers

Amount: 2.5mSEK

Young researcher grant Project Grant from the Swedish Research Council

Project 2012-3128

Amount 3.2mSEK, Duration for 4 years

KAW grants for the recruitment of a foreign guest professor

Fall 2024: Guest Professor Jonathan Breuer, HUJI,

Fall 2019: Guest Professor Gernot Akemann, Bielefeld University

Spring 2017: Guest Professor Arno Kuijlaars, KULeuven

PHD STUDENTS

Tomas Berggren, June 2020

Wenkui Liu, February 2025,

Nedialko Bradinoff, Expected 2026

POSTDOCS

Diane Holcomb, September 2017 — September 2019

Benjamin Fahs, September 2017 — September 2018

Roger van Peski, September 2023 — July 2024

Nathan Hayford, September 2023 — current

Ahmad Barhoumi, September 2023 — current

ORGANIZED EVENTS

I have been a co-organizer of the following events:

Program on "Random Matrices and scaling limits"

Fall 2024, Mittag-Leffler Institute, Sweden

Conference "Asymptotics, Randomness, Nonlinearity and Orthogonality (ARNO)"

May 2024, KULeuven, Belgium

Workshop "Random Schrödinger operators and Random Matrices"

May 2023, Midrasha Mathematicae, Israel

Conference "Random Matrices and Beyond"

June 2022, KTH, Sweden

Workshop “Gaussian fields in Random Matrix Theory”

June 2018, Mittag-Leffler Institute, Sweden

Stockholm-Uppsala Analysis-Probability day II

January 2015, Uppsala University

Workshop “Random Matrices and Jacobi Operators”

May 2014, Mittag-Leffler Institute, Sweden

Stockholm-Uppsala Analysis-Probability day I

January 2014, Stockholm University

ADMINISTRATION

Vice-head of the Mathematics Department for Research and Research Education

September 2023 — current

Part of department leadership for research strategies, including coordination of grants, nominations and awards, as well as the two PhD programs at the Mathematics department together with the respective program directors.

Program Director for the joint KTH/SU masters program in Mathematics

2017 — 2020: Responsible for the management and development of the master’s program

Member of the KTH Faculty Assembly

2016 — 2020: Participated in monthly meetings discussing future development plans for KTH

Member of the reference group for the division of Mathematics

2019 — 2020: Discussing departmental development, including recruitment

EDUCATIONAL ACTIVITIES

Teaching

Main lecturer for 20 different courses on all levels at Caltech, Stockholm University and KTH.

Mini course on *Orthogonal Polynomial Ensembles*, TUMunich 2015 (8 hours)

Mini course on *Determinantal Point process* HUJI 2020 (14 hours)

Course Development

I was actively involved in the development of the following new courses at KTH:

Bachelor level: “Analytical and numerical aspects of differential equations”

Master level: “Fourier Analysis”

Doctoral Level: “Random Matrices”, “Riemann-Hilbert methods for asymptotic analysis”

Program Development

In 2019 I was part of a working group that developed a new Bachelor program in Engineering Mathematics at KTH.

Pedagogical Training

Completed 18 ECTS in pedagogical training, including a supervision course.
